

CHAPTER 13- THE FINAL CHAPTER (Of America?)

When you look at the pictures on the previous page, you see a picture of Michael Thompson and a comrade in arms who happens to be black. I point this out because America has a problem that will inevitably destroy everything that the Covenanter went on a quest to find. He wanted a free nation and no nation under the rule of a tyrant or despot is a free nation.

Michael's dad (Mike Thompson) told about an incident that happened to him. (He didn't tell the story for personal gain or glory but just as something that happened that apparently left an impression in his mind.) Mike coached a girl's softball team. There was a little black girl who wanted to play ball but she had never been coached or trained or helped by her own family. I don't remember if she was the daughter of a "single" mother or what the situation was but Mike put her on the team and allowed her to play whenever the situation allowed. Then her uncle came to a game and was drinking alcohol. He brought up the "racial" card against Mike. So Mike confronted the drunken man and told him how he felt about the situation. If I remember the words correctly, he said "Here is this girl and you're her uncle. But you never took her out and showed her love by teaching her how to play the sport. And now you yell racism when she doesn't know how to play well enough to get playing time." I think that Mike also firmly promised "uncle" that he would teach him what a coach's foot would feel like in his back end if he didn't shut up or get out.

Mike was a father figure to this little black girl and taught her about the sport and gave her the love through his ball coaching that her "black" uncle didn't give because that man was too busy carousing and doing everything associated with a reprobate lifestyle. So three hundred years after the Covenanter came to America one of his descendants gave a Bible lesson to a little girl and never opened a book or spoke a word of scripture.

America has a real problem, and it appears that the nation is on the brink of becoming a totalitarian police state. Satan himself was the author of this welfare state, and what it has done since the time of FDR is to create ghettos that were built using the money taken from the honest workers of America. And the ghettos are not all black but a combination of white and black who ride the system like it is a welfare horse. This ghetto/projects is a collection point for welfare checks and all the adulteries and prostitution that come from this cesspool. A large majority of the children born under this system never know who their daddy is. And their momma doesn't have enough integrity to go out and get a job because she is going against God's laws in the first place. So she teaches by example and raises her offspring, showing them how to milk the system. If she is black, she complains about white racial prejudices as an excuse for her poverty. Never does she consider that her own Godless life style and evil deeds are the cause for her poverty. And because Satan's politicians created the welfare state upon his beck and command and for his purpose, this atheist class of people are reproducing at a much higher rate than the honest workers of America.

On the other hand, the honest people have seen the corrupted state of America and are producing FEWER children. And in 2008 the welfare state population passed the number of honest people in America and overpowered those of integrity, partly because of the stupidity and political bias of some who vote party politics regardless of whether or not Satan's man is running on their party ticket. So America sits poised on the brink of oblivion.

During the sixties the American TV networks either were purchased by or came under control of the Communist Party of America. Remaining "closet" Communists, they have shown their Marxist leanings by deliberate attacks upon Christians and others who oppose the leftist candidates supported by the press. This monopoly of news reporting is in violation of American anti-trust laws but has gone unchallenged. The courts or the legislative branches should have broken this corruption up but were either party to it or afraid to oppose it. So the mechanism is already in place for the propaganda necessary to support a Communist rule and totalitarian state in America.

America has stupid or corrupt politicians who thought it to be a "winning" situation when Fidel Castro cleared his prisons of criminals and sent them to America in boats. This group of incompetent leaders thought it great that those criminals were able to escape the Communist rule of Castro. So the new "immigrants" entered America and almost instantly began to commit crimes. They were mostly black.

There were also immigrants from Haiti who brought their witchcraft and Devil worship to America. And almost instantly they went onto the welfare rolls. One of those people made his way to Sweetwater, Tennessee and

stopped at a little store located about 1/4 mile east of Interstate 75 and just north of State Highway 68. This immigrant used a machete and chopped a poor white female worker nearly to death. And he was black.

The true statistics show that about 80% of all of America's crimes come from the black minority population of America. And that isn't caused by the fact that they are black but instead caused by the demonic welfare state that allows them to form ghettos in public housing and to produce illegitimate babies as wards of the state living on welfare. Any fool can see that if America's working class is being reduced in percentage to the ratio of nonworking welfare people, eventually the system will collapse. It is no different from biology experiments in which you make one group of mice work for their food and give another group of mice a free meal with free time to reproduce more mice. That is where America stands today. People jump the borders as illegal aliens. They enter America for the purpose of either engaging in criminal activities or reaping the benefits of a welfare state. And a criminally corrupt U. S. Congress and Senate do not act properly to stop this from happening. They are in the same condition that the old Roman Empire was in prior to its collapse.

Take a look at the A&E or History Channel programs called "48 Hours" or "Bait Car." About 80% of the participants of crimes depicted in those programs are black. The programs are filmed in the large city projects and crime goes unchecked there. When you see the video of a bait car set out in the street you see mostly black criminals go up to the car, open the door, and steal the car as though there was no more moral implication than their going to the bathroom to wet. THAT is the ATHEIST mindset that comes from the welfare state and constant evil deeds and crime being FINANCED BY the welfare state. And they are not limited to the black race. The number of criminals probably follow the statistics of being 80% black and 20% white or hispanic.

A few years ago the welfare class and all Americans were given a choice because Alan Keyes, a black man, ran for president on the Republican ticket. He was both a Christian and an honest person. I voted for him in the primary BUT the Republican party wouldn't allow him to speak in their debates or give him a platform to speak his perspective of truth. So they rejected him and there was no outcry of "racism."

Then in 2008 another black man came forth with a history of teaching Marxism and speaking anti-American rhetoric. He sat for twenty years under the "preaching" of a man who stood in the supposed pulpit of God and used God's name in vain cursing America. It is obvious that a man who would stand in a pulpit and use God's name in vain in profanity is one of Satan's ministers of darkness. That is taught by the Holy Bible scriptures.

But the welfare class and others jumped on his bandwagon and accepted his lies when he promised to GIVE THEM things that he didn't have the resources to give. OF COURSE it would come from the savings and labors of the working man. And an organization called ACORN collected money funneled to them by evil legislation crafted by homosexual Democrat Barney Frank. Then that money was used to pay people who went forth throughout America and signed up millions of blacks to vote for their candidate Obama. In MULTIPLE locations they were indicted for voter fraud. One particular indictment was against four ACORN employees who registered 35,000 people to vote in Kansas City, Missouri. The FBI indicted them and naturally, AFTER CAUGHT, the ACORN organization fired them. The records examined by the FBI showed that they had registered dead people. One person was registered to vote fifteen times. This is a deliberate and criminal threat to the freedom of every honest working man in America. And the reason behind their actions is that their candidate had promised to "redistribute wealth." In effect, this means that he will seize the assets of working people and redistribute that money to the welfare state to support those who never work and do anything but commit crimes and reproduce babies. There is no bigger Devil in Hell than a person who would take money from the honest person and give it to criminals.

The corrupt legislative branch of the U. S. government set the stage for voter fraud by allowing people to vote prior to the election throughout a long time period. This allowed the criminals and illegally registered voters to cross county and state lines and vote MULTIPLE times. The 2008 election is the point in time at which a national election was first rigged by massive and intentional voter fraud using early voting as the mechanism for the crime.

Another aspect of the 2008 election was that OPEC raised the price of oil to \$140.00 per barrel previous to the election and created massive discontent with the Republican party. That was the tool used by corrupt and Communist-oriented national TV Networks in the partisan support of a Marxist for president. And the Communist-biased TV networks attacked an innocent plumber because he DARED to ask a tough question of their God. They

violated the Right to Privacy Act by unlawfully examining and disclosing federal income tax records to attack the man's honor. And finding that he owed \$1200.00 of income tax, they reported that as news to the entire nation in order to discredit the man. BUT they refused to report the news when Congressman Kennedy was videotaped assaulting a woman and stuffing her into an airport security camera. And they never reported the news about the Liberal Democrat who was caught covering up income to escape payment of probably around \$100,000 of income tax. So the moral of this story is that Satan also owns the American Communist TV networks.

As soon as Obama had the election won, the price of oil dropped below \$70.00 per barrel. And one of the first things that Obama says he intends to do by executive order is to prohibit the offshore drilling for oil. This action will make America dependent upon OPEC oil and Obama will have PAID HIS MASTERS. Could there be a more EXPECTED action from a Marxist and traitor to America?

I heard a panel of COMMUNIST democrat talking heads on the educational channel 45 discussing their plans to rape America of its resources for the "common good." In the first place, the democrats take money from American taxpayers to finance the educational network which is mostly run by minorities who are naturally democrat. Then they use that channel for their Communist propaganda paid for by our tax dollars. But their stated intent is to divert the money from medicare which was taken from working people and presently used for their retirement health care. That money under the OBAMA reign will be used for universal health care to take care of ghetto whores and illegitimate babies conceived by their Godless life style. Let me explain the impact of this to all the "traditional democrats" who don't understand. This plan will decrease the availability of health care for EVERYONE because there is only a fixed amount of resources available. So your health care will become of poorer quality or NON EXISTENT. Secondly, these gheto whores don't ever pay for ANYTHING so the increased costs of premiums will come out of YOUR POCKETS. What part about the words "RAPE AMERICA" don't you understand? This again shows that these COMMUNIST democrats are OF THE DEVIL led by the SPIRIT OF THE DEVIL with the intent of destroying America by plundering its resources. It will be a CRIME against all of those who are retired and on medicare. But that's the reason they are democrats because it allows them to VOTE LIFE SAVINGS AWAY from honest people since they don't have the guts to take a gun and go out and steal it outright. They already have been more tyrannical than those British who provoked the American Revolution and their deeds are far more evil. Even the British didn't take money from working citizens to pay for baby murder.

Recently a Georgia congressman dared to express his opinion that Obama intends to form a police state in America and ban all guns. He showed the parallel between Obama's plans and the method that Adolf Hitler used to subordinate Germany. How ironic it is that Hitler called his OWN PARTY the National Socialist Democrat Party. Then in response to the expression of his honest opinion, the American Communist news networks attacked the Georgia Congressman like attack dogs from Hell. The Communist press and their TV network owners are so reprobate that they teach evil to children via their perverted programming and claim that action is a Constitutional Right. But these same children of Satan attack a man for exercising his own freedom of speech. These are the signs of the Communist totalitarian state that America is becoming.

After the 2008 election there was a senatorial seat vacated by Obama. Being an enterprising man, the governor of Illinois decided that this would be a good source of income for himself by peddling and selling the vacated seat. So he was recorded by the FBI and indicted for this crime and several other similiar crimes. But being a democrat in a state that is traditionally democrat and controlled by organized crime, he decided that he is ABOVE the law and refused to resign the office. It appears that even if he were videotaped shooting someone on national tv, the communist homocrat tv reporters would simply spin that off as part of a fictional plot in a play. This is a direct insight into the charactor of the communist homocrat party politicians and the communist homocrat party propaganda machine. It also is an insight into the criminal corruption of the American political machines.

It seems obvious that God also has a sense of humor. Consider that the ghettos with their adultery, fornication, prostitution, murder, theft, and other evil deeds have become an abomination in the eyes of God. It appears that God looked upon America and said "I will let YOU become an OBAMA NATION." You have chosen SATAN and now there is Hell to pay. Have we just entered the tribulation period?

And the only journey remaining in the Covenanter's quest is the soon approaching return of Jesus to collect his own and to let Satan have the rest via the judgment and Lake of Fire. The Covenanter did his part and his children spoke a message to a nation that mostly rejected those words. And very possibly this book could be some of the final words written to convey the message that was carried during the Covenanter's quest.
